INDIAN INSTITUTE OF MATERIALS MANAGEMENT

IIMM (Indian Institute of Materials Management) is a professional body promoting operational excellence in industry over 50 years. IIMM is a charter member of International Federation of Purchasing and Supply Management, IFPSM,UK. Its wings are spread nationwide with a network of 52 branches, 20 chapters and over 10,000 members. IIMM offers short term, one and two year courses on Materials, Logistics and SCM.

SPECTRUM

Spectrum is a prestigious event organised by IIMM, Chennai, successfully since last 12 years. Business leaders, Innovators and Award winners across various industries share their success stories and insights on how SCM will shape up in future. Each year a theme is chosen to reflect global trends in SCM. A large gathering of SCM professionals attend the event and benefit by listening to the thought provoking sessions.

SPECTRUM - 2020

Spectrum 2020 is presented under the theme "SMART LOGISTICS ENABLES SCM 4.0". The theme reflects trends that will shape Logistics in the Future with global perspective. Experts will share impact on logistics by Robotics, Automation, Artificial Intelligence, e-Commerce, Blockchain, Autonomous vehicles and Drones across various industries like Agro, Automotive, FMCG and Pharma.

Spectrum 2020, will explore opportunities and challenges w.r.t. Intermodal Transportation, Last mile connectivity, e-mobility, reverse logistics etc. Here is an opportunity to meet and network with industry leaders, listen to success story and panel discussion by experts.

WHO SHOULD ATTEND ?

- ⇒ Senior and Middle level executives involved in Strategic Planning, Manufacturing, Services, Logistics, Sourcing, Automation, and IT professionals involved in SCM.
- ⇒ Logistics Services Providers and Consultants.
- ⇒ MSME involved in Logistics who look forward to next level of improvements.
- ⇒ Trainers & Faculty from Educational Institutions to who want to update themselves with the latest trends

KEY TAKEAWAYS

- ◆ Develop strategies for your Logistics Services, in the context of recent trends emerging in the global logistics industry
- ◆ To identify the opportunities to leverage and scale up
- ◆ To identify the challenges to encounter and protect the business
- ◆ To plan and develop competence required for various levels of emerging SCM professionals in advent of emerging technologies.
